

Gervais School District 1

Code: **EBBAA/GBEBC/
JHCCC**

Adopted: 7/15/93

Revised/Readopted: 2/19/98

Infection Control - HIV, AIDS, HBV

The district shall use standard precautions at all times for infection control. Each person is therefore treated as though an HIV, AIDS or HBV¹ infection exists.

The district shall develop an Exposure Control Plan that includes infection control procedures for staff and students.

All staff should receive information as part of an annual in-service that includes correct procedures for cleaning up body fluid spills and for personal cleanup, immunization and personal hygiene, as well as the location and a content review of first-aid and clean-up kits. Kits shall be available for each room in the building and in each district vehicle.

In addition, staff and students will receive HIV, AIDS and HBV information on a regular basis.

The information shall emphasize infection – how infection is spread as well as how it is not spread.

The district will cooperate with Oregon Department of Education in delivering HIV, AIDS and HBV education.
