

TRANSFER OF RESIDENT STUDENTS

A resident student may be allowed to transfer to another school district with state reimbursement following the student when a non-resident student is transferred to the Gervais School District on a one-for-one basis. It is the goal that the net gain & loss does not negatively impact the Gervais School District.

Resident students may transfer to other public schools if the parent/guardian is willing to accept the new district's terms of enrollment which may include the payment of tuition as neither district will be eligible for State School Fund moneys.
