Teachers have 8 hour days. We will be having 45 minute blocks with 10 minute transition times between online classes to give students and teachers grace time. Teacher Office Hours are for helping students that need extra help or one-on-one contact with students or parents. During this complete online version we will be working with a condensed schedule meaning elective will not be happening, take that block and remove it from your schedule. As far as PE we haven't made final decisions for that yet.
