District Goals

Our strategic plan goals are: third graders read at grade level, 100% graduation rate, 8th graders meet/exceed math levels, continuous development of 21st century employable skills, meaningful parent and community involvement, and relevant, engaging, rigorous instruction in every classroom, every day. The 2017-2018 report cards reflect some measurable growth in language arts and mathematics when compared to the school year 16-17 data. We continue to strive to build opportunities for our student populations in areas of Career and Technical Education Programs (programs on high school report card).

State Goals

The Oregon Department of Education is working in partnership with school districts and local communities to ensure a 90% on-time, four year graduation rate by 2025. To progress toward this goal, the state will prioritize efforts to improve attendance, invest in implementing culturally responsive practices, and promote continuous improvement to close opportunity and achievement gaps for historically and currently underserved students.
