DISCIPLINARY ACTIONS

Students demonstrating problem behavior will be subject to disciplinary action. Depending upon the seriousness of the behavior, one or more of the following actions may be taken by school officials (teachers, administrators or other school district employees). These disciplinary actions may include the creation of a behavior support plan with the student. Students on Individual Education Programs (IEPs) will be subject to appropriate federal and state established rules and procedures.

CONFERENCE

A conference is held between the student, and one or more school officials. These conferences can take multiple forms, from teacher led to administrator led, and from parents absent to parents present. During a conference, the student's recent behavioral choices will be reviewed and better options will be discussed. A plan for appropriate behavior will be developed and agreed upon. When appropriate, parents may be included in a conference.

DETENTION

A student may be kept at school, but held out of one of more classes, his/her lunch recess, and/or kept after school. In the case of an after school detention parents/guardians will always be notified.

PARENT / LEGAL GUARDIAN CONTACT

A parent or other legal guardian is notified by telephone, personal contact or letter. The student may be the one completing the call under the direction of a school official. A conference may be conducted between the student, his/her parent / legal guardian, appropriate school officials and other necessary individuals.

ACTIVITY EXCLUSION

The student is reassigned away from usual activities with the school. This may include, but is not limited to a schedule change or a temporary suspension from extra-curricular activities (athletics, clubs, etc.). A shortened school day could also be a consideration. The student may be asked to help create a plan for appropriate behavior.

COMMUNITY SERVICE

Students may be assigned a specific number of community service hours to complete projects around campus (washing windows, sweeping floors, cleaning whiteboards, etc.). Community service may be assigned after school. In the case of any after school assignment, parents/guardians will always be notified.

RESTITUTION

It is expected that property wrongfully taken, damaged or destroyed will be returned to the rightful owner and/or payment made to the owner commensurate with the value of the item(s) damaged/destroyed.

SUSPENSION

Suspension is a temporary withholding of the right to attend school and school activities for a specified period, not to exceed ten continuous school days. Suspension may be imposed in serious cases of rule violations, as outlined in these guidelines, or in cases where other means of

correction have failed (repeat offenses), or when keeping the student in school would be detrimental to the general welfare of the school and its students.

The school principal or other administrative officials may order a suspension. A “short suspension” is a period of up to five school days. A “long suspension” is a period of six to ten school days. In both cases, the student is excluded from school and all school activities and is served with a criminal trespass warning for the suspension period.

Before being suspended, the student shall be told what specific rule(s) have been violated, informed as to the evidence of the violation, and allowed to present evidence in support of his/her position. If the student is suspended, the student shall be informed of the reasons for the suspension, the period of the suspension, and any conditions for reinstatement.

Parents shall be notified of the suspension, reasons for the action and given the opportunity to meet with the administration to discuss the decision. If the matter remains unresolved, the student or legal guardians may appeal the decision to the school principal, and then to the district superintendent.

The above procedures may be delayed/postponed in emergency situations, when the student’s presence endangers persons or property, or poses a disruption to the academic process.

SHORT SUSPENSION

The student is excluded from school and/or related activities for up to 5 school days. Parents will be notified of the action taken. During a suspension period the student is not allowed on any school district property, and is not allowed to attend any school activities, home or away. Further information concerning suspension can be found in GSD School Board policy JGD. A plan may also be developed for appropriate behavior. All applicable legal requirements will be followed.

In the case of bus violations, a student may be suspended from riding the bus for one to five days.

LONG SUSPENSION

During a long suspension the student is excluded from school and all related activities for a period of six to ten school days. During a suspension period the student is not allowed on any school district property, and is not allowed to attend any school activities, home or away. Parents will be notified of the action taken. Further information concerning suspension can be found in GSD School Board policy JGD. A plan may also be developed for appropriate behavior. All applicable legal requirements will be followed. In the case of bus violations, a student may be suspended from riding the bus for six to ten school days.

EXPULSION / EXPULSION PROCESS

The principal, or administrative designee, may recommend that a student be expelled for severe or repeated violations of the “Guidelines for Student Conduct.” When this occurs, the student will be informed that he/she is immediately suspended from school, and that a recommendation for expulsion will be made.

A hearing will be scheduled in front of the “district hearings officer.” The student and his/her legal guardian will be notified in writing of the pending expulsion. Information about his/her rights under due process will be explained, including the right to attend the hearing where evidence of the wrongdoing will be presented. At the hearing the student will be advised of district alternatives, and have the right to present evidence.

An expulsion includes the removal of a student from school, from school activities and all related school functions. The length of time that a student is expelled is determined by the hearings officer or by state statute, may be altered by the district superintendent, and may be for up to one calendar year. The length of the expulsion, in most cases, will be for the remaining days in the current school term, or may extend to the next school term, if the expulsion occurs late in the term. An expulsion shall not exceed beyond one calendar year. A one year expulsion is mandatory in a firearms possession.

Further information concerning expulsion can be found in Board Policy JGE. All applicable legal requirements will be followed.

In the case of bus violations, a student may be expelled from riding the bus for the remainder of the school year or up to one calendar year.

Note: If a serious violation occurs near the end of the school year, the expulsion consequences may be carried over to the next school year. Also, the district may deny admission to a student who is expelled from another school district. The district will deny admission to a student expelled from another district for violation of the federal Gun-Free Schools Act.

Students may be suspended or expelled for their actions occurring during non-school hours, away from school property or school related events.

If a student engages in acts of violence or aggression against persons or property, or violations of drug or alcohol laws, whether or not he/she is arrested or convicted, he/she is subject to possible disciplinary action by the school – wherever those acts may have occurred. This would include violations occurring electronically, in whole or in part.

For serious and/or repeated infractions district administrators may also choose to recommend to the Oregon Department of Motor Vehicles (DMV) that a student’s driver’s license be suspended.

PROCESS FOR APPEAL OF DISCIPLINARY CONSEQUENCES

Contact the superintendent’s office in writing of your desire to appeal any disciplinary consequences. You will be contacted within three school days.

DRESS/GROOMING GUIDELINES

School staff are responsible for seeing that student attire does not interfere with the health or safety of any student, that student attire does not contribute to a hostile or intimidating atmosphere for any student, and that dress code enforcement does not reinforce or increase marginalization or oppression of any group based on race, sex, gender identity, gender expression, sexual orientation, ethnicity, religion, cultural observance, household income, or body type/size.

Any dress, grooming or appearance which disrupts the education process, or affects the health or safety of individuals shall be prohibited, including but not limited to, any attire or accessories that promote the use, possession or transmission of alcohol, tobacco, drugs or an illegal substance. Students are prohibited from carrying, wearing or displaying material, devices, identifying markings or paraphernalia that indicate membership or support for gangs. Wearing attire displaying profane language, weaponry, anything pornographic or inappropriate behavior is prohibited.

GANG PARTICIPATION OR AFFILIATION

A gang is a group of people who interact among themselves to the exclusion of other groups, have a group name, may claim a neighborhood or territory and engage in criminal behavior. Participation in gang activity is prohibited. Students are prohibited from carrying, wearing or displaying material, devices, identifying markings or paraphernalia that indicate membership or support for gangs.
