Functional space that will supports academic programming now and in the future as Gervais grows is our top priority. We support funding maintenance issues and efficient facility upgrades and expansion. We do not support projects that could be funded through other district budgets or non-functional upgrades at this time. Gervais lags in programming offered compared to other districts, projects that improve programming are appealing.	7/21/2022 8:12 PM

Q7 The priorities for the bond project were developed with input from students, staff working in the buildings, and parents who currently have students in the buildings. The bond committee felt this was the best approach in order to gain feedback on what needed to be addressed right away. The priorities developed by these stakeholders identified finishing the middle school, remodeling the high school and creating a "warm, safe and dry" solution to the elementary building knowing that the district does not have any land to build a new elementary school and the voters' could not afford to pay for a new elementary school. What are your thoughts/suggestions about this approach? Las prioridades para el proyecto de bonos se desarrollaron con aportes de los estudiantes, el personal que trabaja en los edificios y los padres que actualmente tienen estudiantes en los edificios. El comité de bonos sintió que este era el mejor enfoque para obtener comentarios sobre lo que se necesitaba abordar de inmediato. Las prioridades desarrolladas por estas partes interesadas identificaron terminar la escuela intermedia, remodelar la escuela secundaria y crear una solución "cálida, segura y seca" para el edificio de la escuela primaria sabiendo que el distrito no tiene terreno para construir una nueva escuela primaria y los votantes no podrían pagar por una escuela primaria nueva. ¿Cuáles son sus pensamientos/sugerencias sobre este enfoque?

middle school so middle school students can have an appropriate school setting specially when it comes to lunch time and recesses also enough lockers for all of them are needed.

11	The bond can't be for 20 to 30 years. That is what is driving people away. You need to make it for 10 to 15.	7/25/2022 8:02 AM
12	I think it was a great approach.	7/23/2022 8:49 PM
13	You did everything perfectly right. We're very disappointed that the community did not support this.	7/23/2022 7:33 PM
14	Honestly, mixed feelings. But trying to accomplish much needed renovations and upgrades with this approach, is better than continuing the way the schools are.	7/23/2022 5:17 PM
15	I did not feel that there was adequate explanations. I get that The summary had to be brief for it to be more digestible, but the only remodeling I really understood what was going to happen was the elementary school. There were sections where I would have appreciated a bit more detail. Like for the high school, one of the classrooms did not have an internal access door, you had to either go through another classroom or outside then back in. But no one really thinks about that if they don't take a class in there. There were a lot of those types of things that may be get brushed over with this method. I think the input from people involved in the district is good, but I would hope there would also be some organizing with what is important after all of the feedback was gathered.	7/23/2022 1:30 PM
16	I liked the approach, I was happy with all the plans I heard about.	7/22/2022 8:44 PM

19	I'm still sad Brooks Elementary was sold.	7/22/2022 11:05 AM
20	I believe the strategy was very successful. However, when it came down to actually breaking down how this would impact property owners and the details of actual cost for the projects and their roll outs is where it was a little muddled. Explain everything to everyone like they are 5 because honestly, it's a lot of info to take in at one time.	7/22/2022 9:53 AM
21	I hope they are able to rewrite the bond and then it will be approved. I have no children in the school district but I do care about the kids. Maybe I wasn't informed enough prior to voting.	7/22/2022 7:57 AM
22	Ask the property owners who would be paying for it as well.	7/22/2022 5:51 AM
23	I believe the school district should come up with a budget that they can built a new school for Elementary, remodeling middle school and high school .	7/22/2022 4:01 AM
24	I think that our kids deserve to get a great education and, to have a safe, secure, calm, bully/racist free environment in which tkt hey can thrive.	7/22/2022 2:30 AM

34	The district's needs supersede the affordability of the community. Gervais desperately needs a new school, unfortunately this appears unlikely. We agree with the approach to include students, staff and the community in the decision process. Perhaps more parents and community members could be included next time. Q9 Information provided by the Marion County Tax Assessors Office and used in the district's informational materials said the averaged assessed property value in the City of Gervais was \$145,000 and properties in the entire district (including farms) were assessed on average at \$210,000.

This meant that for the average in-town property, the increase to your property taxes would have been about \$30 per month. La información provista por la Oficina de Tasadores de Impuestos del Condado de Marion y utilizada en los materiales informativos del distrito indicó que el valor promedio de la propiedad tasada en la Ciudad de Gervais fue de \$145,000 y las propiedades en todo el distrito (incluidas las granjas) se tasaron en promedio en \$210,000. Esto significó que para la propiedad promedio en la ciudad, el aumento de sus impuestos sobre la propiedad habría sido de alrededor de \$30 por mes.

14	This may be the statistics, but many of the active members of the community hold much higher assessed value and would pay much more than \$30. Also, dollar amounts are subjective. To someone in a dual income home with an affordable home \$30-\$50 is a minor inconvenience. However, people on fixed incomes or who are already living frugally just to make it (no coffees or Dutch drinks, no eating out, etc) this could be a heavy burden.	7/21/2022 8:12 PM

4	I would have voted yes if I had voted.	8/5/2022 12:35 PM
5	Doesn't affect it, those towns are bigger with more community stores and resources. Gervais is little and we have no money for extra things.	8/3/2022 9:46 PM

9	We all need to understand that this is for the good of our kids but it's very hard to convince other folks about it.	8/3/2022 1:17 PM
10	The only impact it had on my vote was frustration that our community doesn't understand how this process works or why bond measures are necessary for maintenance, updates, and future growth.	8/3/2022 1:12 PM

25	Having clear numbers/communication about how and who this effects more clearly. Not just word of mouth from city hall meetings, shared Facebook community page posts or mail flyers that don't share the break down. Sure I want to know what you're going to do with the money I'm agreeing to pay, but when I'm making that choice on the ballot, I'm thinking about the current economic state, the current strain the household is feeling financially, and the direction we think things are headed. Not just about how the kids deserve to have an amazing school.	7/22/2022 9:53 AM
26	We should work on getting property taxes down and then get a bond to construct a new building.	7/22/2022 8:25 AM

38	Didn't impact. Came down to budget	7/21/2022 9:17 PM
39	I really think we needed this to pass for our children and our future children	7/21/2022 8:51 PM
40	I will be happy to vote yes when inflation is not so high.	7/21/2022 8:31 PM
41	It didn't impact my vote and it wouldn't have. What happens in other districts doesn't really matter. This district needed that money, they deserved it, and if none of those schools had bonds, they'd still very much deserve and need it.	7/21/2022 8:19 PM
42	Get a better financial plan, spend that money BETTER.	7/21/2022 8:15 PM
43	Comparing our bond status to other districts did not influence us to vote yes. It actually came across poorly and resulted in us to have a more negative perspective of the bond and process. This is about Gervais, not about what everyone else is doing.	7/21/2022 8:12 PM

Q12 According to the district's architect and consultant, building costs for new construction were estimated to be the following: New elementary school--\$65 million New middle school--\$43 million Connecting new "middle school wing" to the high school--\$41 million Remodel old high school to be a middle school--\$8.6 million New High School--\$79.6 million With these costs in mind, the district opted to pursue a \$31 million bond that would have allowed for improvements in all three buildings. What are your thoughts about these amounts and/or this approach? Según el arquitecto y consultor del distrito, los costos de construcción para la nueva construcción se estimaron en los siguientes: Nueva escuela primaria: \$65 millones Nueva escuela intermedia: \$43 millones Conexión del nuevo "ala de la escuela intermedia" con la escuela secundaria: \$41 millones Remodelación de la antigua escuela secundaria para convertirla en una escuela intermedia: \$8,6 millones Nueva escuela secundaria: \$79,6 millones Con estos costos en mente, el distrito optó por obtener un bono de \$31 millones que habría permitido mejoras en los tres edificios. ¿Cuáles son sus pensamientos acerca de estas cantidades y/o este enfoque?

1	I feel like this survey is aimed to reiterate the information that was presented about the bond.	8/11/2022 12:24 PM
2	The middle school issue needs to be addressed if not build a new high school then convert the existing high school into a middle school.	8/11/2022 10:31 AM
3	I believe improvements are needed in all buildings.	8/5/2022 12:35 PM
4	Not enough for the amount of work to be done. And if it passed when would this work get completed over summer (?) not going to happen so our kids go to school with construction happening at the same time (?)	8/3/2022 9:46 PM
5	It makes sense to update/remodel rather than to build new	8/3/2022 5:18 PM
6	I trust that people did their jobs and were going for some thing realistic.	8/3/2022 2:18 PM
7	Me parece perfecto, porque ya es necesario que haya cambios en la escuela..	8/3/2022 2:14 PM
8	Unfortunately material has gone up by a lot, I am a contractor and I know how much it costs so I do not doubt these prices.	8/3/2022 1:17 PM
9	As much as the elementary needs an entire new school the residents just can afford it so this would suffice. As long as my kids WARM.	8/3/2022 1:15 PM
10	Those amounts do not surprise me, and in a perfect or magical world, we could eventually build them all, but unfortunately, we aren't Beaverton, Hillsboro, or SKSD. But I think sharing several of these options with the dollar amounts necessary, along with other possible scenarios/options and amounts necessary, and have community members rank the options from most favorable to least. This could help give the district a better idea of what voters see	8/3/2022 1:12 PM

as important priorities and what to possibly consider presenting to voters in the May 2023 election.

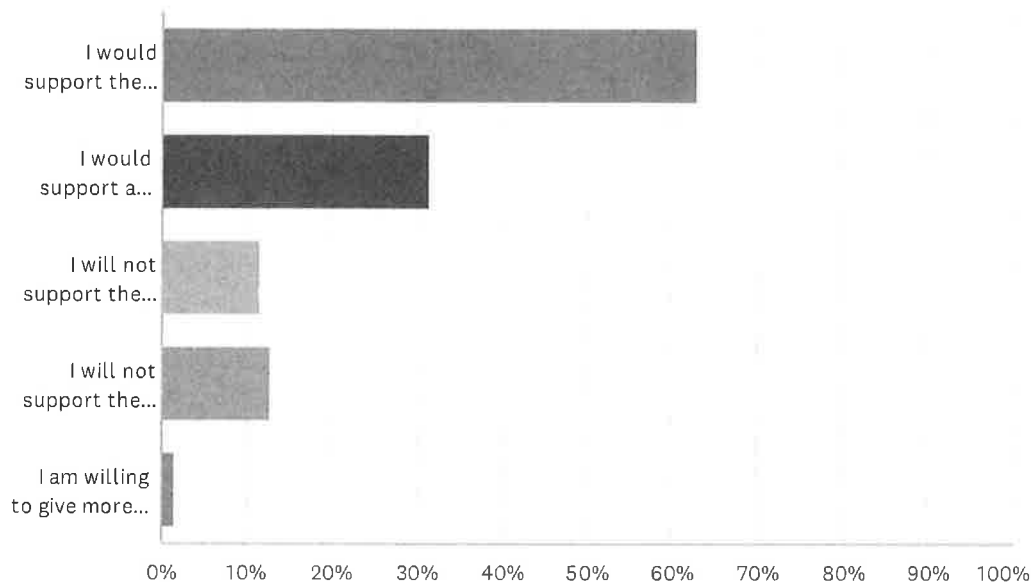

11	I feel this approach was very appropriate for our taxpayers.	7/30/2022 8:05 AM
12	I think the price was a good choice	7/27/2022 10:48 AM
13	Why now? You didn't want to listen before.	7/26/2022 10:42 AM
14	I agree that the schools do need fixing but don't agree with building a new kitchen and some of the other projects	7/25/2022 7:33 PM
15	I believe that the first thing is to build an appropriate middle school setting because they don't even have an appropriate place for their lunch time or recess time also they don't have lockers for each student which I believe they need and also a library of their own would be nice.	7/25/2022 8:34 AM
16	It nice to have improvements, but again 20 to 30 years of paying this those improvements will be outdated. Then another bond will be asked for.	7/25/2022 8:02 AM
17	I agree with the choices that were made.	7/24/2022 2:55 PM
18	Those are a whole lot more money than the proposed bond and just backs my belief that the proposed bond was a smart way to go.	7/23/2022 8:49 PM
19	I trust the people charged to figure out what us needed and what are reasonable costs.	7/23/2022 7:33 PM
20	It is a lot of money. We do need a better, safer and updated environment for our students, personal and community.	7/23/2022 5:17 PM
21	I now have more questions. Why was connecting part of the middle school to the high school ever an option when the middle school is barely connected to itself? I don't know what information you are trying to gather comparing the expensive price options to the option that was pursued. You went for the most reasonable option of the ones you listed. Was this all of the options, or are you just listing ones to make it seem like you weren't asking for that much?	7/23/2022 1:30 PM
22	Pues la cantidad siempre varía pero para mejorar la escuela se necesita de todos	7/23/2022 5:56 AM
23	Happy and satisfied with this approach	7/22/2022 8:44 PM
24	Too much at one time, considering other taxpayers costs	7/22/2022 5:04 PM
25	I would vote for it.	7/22/2022 2:35 PM
26	Prices are only going to get higher. Good luck	7/22/2022 2:02 PM
27	I think while they were trying to find the middle ground for getting some of the improvements, I feel like it may be a bandaid solution to a more long term issue. So overall, I feel as though they were not asking for enough to actually make any long term changes be lasting changes. The population is only growing, while we can't develop town anymore doesn't mean Gervais isn't going to grow. Find ways to allow for the growth in a more comfortable way for everyone: the students and the town.	7/22/2022 9:53 AM
28	The only very disappointing thing is knowing that there was previously money set aside to fix the roof of the high school and it was allocated to other things so going after the voters for more money again is pretty crappy. The roof should've been fixed already.	7/22/2022 8:48 AM
29	I've seen schools get built under that for bigger towns, i think we could of got 1 school built for closer to the original bond	7/22/2022 8:25 AM
30	It seems high, but I'm not qualified to judge.	7/22/2022 7:57 AM
31	I feel that we do what we need to do to get our kids (3 GHS grads), grandkids, etc	7/22/2022 2:30 AM
32	Son grandes cantidades	7/21/2022 10:37 PM
33	It would be nice if all the people can help to make this happen. As community we can also help by making social events that would help collect money	7/21/2022 10:22 PM
34	Too much \$31 million ridiculous should have asked for less	7/21/2022 10:09 PM
35	I think they estimates are too high on all of the above options.	7/21/2022 9:30 PM

36	It seemed like the more affordable option.	7/21/2022 9:17 PM
37	We need this to happen	7/21/2022 8:51 PM
38	The district deserved entirely new schools however this was the most comprehensively efficient approach in my opinion.	7/21/2022 8:19 PM
39	Get a second opinion about the cost. We just need new buildings for the high school and middle school.	7/21/2022 8:15 PM
40	I would have preferred the district ask for slightly more to build a new middle school. In addition to this amount, a budget could have been added to make required repairs (only required) to the buildings (roofs etc.)	7/21/2022 8:12 PM
41	That was the right approach given the financial situation. Unfortunately costs are now significantly higher.	7/21/2022 8:05 PM
42	It's a lot of money, but necessary to keep our schools.	7/21/2022 8:01 PM
43	Que esta bien si era lonque se necesita hacer para las mejoras	7/21/2022 8:00 PM

1	everything I heard proposed to this point is a Bandaid that is an entirely temporary fix at best. The superintendent is hell-bent on turf fields that nobody I know wants or cares for. Turf is proven to be more dangerous to our students than grass fields. Lastly, once this project is	8/11/2022 10:31 AM

completed, you will be hitting us up for another bond afterward since this does not fix the underlying issues.

2	You need to have the bond for a shorter amount of time. 20 to 30 years is absurd. Property values will just continue to go up which means our assessed vaule will go up, which means the more we pay to the school.	8/3/2022 2:55 PM

14	We would support a revised bond with more consideration to funded projects. We didn't feel the last bond made the most of the money being requested. We'd like to see a more detailed report of costs and specific projects to be funded, a bigger effort to try to get a new building built, and less concentration on non essential projects. (And a smaller and more specific report on how left over funds would be used.) We would consider supporting a bond for more than the original \$31 million if we feel the money is efficiently budgeted.	7/21/2022 8:12 PM

1	If you want better attendance at high school games, scrap the turf field and build covered Bleachers. You will be able to charge better entrance fees and more people will come out.	8/11/2022 10:31 AM
2	I always vote yes for bond measures, however, with the economy etc as it is, I think if Gervais could get the bond lower, I think it would have a MUCH better chance of passing.	8/3/2022 5:18 PM
3	I like the idea of where the money will go. However, the length of the bond is to long. You can shorten it and yes it will shorten the amount you get, but I believe you will have a better chance of it passing.	8/3/2022 2:55 PM

7	Agamos más campañas para que más personas apoyen con su voto	7/23/2022 5:56 AM
8	I strongly believe the bond did not pass because there was not enough information shared about it, about how much it is truly needed. I spoke to family members that honestly had no idea about it, just saw a some bond that would raise taxes.	7/22/2022 8:44 PM
9	I think more long term thinking is required, otherwise another bond will be needed to make more repairs, etc down the road. It seems as though there isn't enough space in all of the schools for all the kids. So maybe it's time to figure out a real solution to building a new high school and renovating the others to support the growth of the students. Start creating a long term plan to something that isn't just gonna go away with one bond measure.	7/22/2022 9:53 AM

15	The community seems to enjoy participating in events and fundraisers. Maybe lower the bond amount and add in more fundraising specifically for improvements.
