## Announcements

Everyone should have received Course Offering Sheets for 23-24. Please plan to meet with your necessary departments and figure out preliminary courses for next school year. There are a lot of variables in play...but we need to at least have an idea of what we are offering for now. I will provide some time for this on ER Wednesdays. No due date as of now, but would like to receive these sooner rather than later please.

We need to begin planning for March 17<sup>th</sup> – we would like to have each dept/subject host a table or activity. I will try to provide some time for this on ER Wednesdays.

3 new AFTER SCHOOL positions for Math/Reading help and intervention are posted – please apply by Friday if interested.

*If you have anyone interested in coming out for Career Day on April 5<sup>th</sup> – we will be hosting individuals to showcase their specific career – please let Liz Lopez know if you have anyone.*

**PAWS – Please remember to only contact Janelle with all things related to PAWS – not Shawna. Thank you.**

***All grades from Semester 1 should now be finalized (except for students who were absent for vacation or any other extenuating circumstances).***

We will be having another GHS Social Gathering at Route 99 in Brooks on **March 10<sup>th</sup>**!

Reminder that March 17 is a normal school day followed by a school-wide event until 8:00 – please plan to attend. We are beginning to plan something BIG and FUN for this evening...Andrew may be asking people to volunteer to help plan this event.

*Advisory Semester 2 gradebook assignments should be in your mailbox – if you need one please ask Tucker.*

If you host an after-school club – please be sure to take attendance on the shared spreadsheet.

The FLC sells Dog Treats! They are delicious...please purchase some 😊

Remember to close all doors and windows at the end of each day.

-The last EL Achieve Training is 3/11 in Woodburn. You would be paid for the training. We would like to have more teachers trained in this. Questions...please ask.

Reminder that Google Classroom should still be updated regularly.

The chemicals used in fragranced products are a respiratory irritant and create a serious health risk for many people who have asthma, allergies, chemical sensitivities, and other health conditions affecting the respiratory system. Please be mindful of being Fragrance Free while in the building.

As always...please remember we are all in this BALL PIT together...

Have a Question...Just ask!
